SUBJECT INDEX

A

- Ability variables
 - latent variables and, 626
- "Absorb and readjust"
 - capability
 - insomnia and, 227
- Abuse
 - eating disorder causes and, 195-96
- Academic attainment
 - socioeconomic status and child development, 375-77
- Acceptance
 - self and social identity, 172-74
- Accountability
 - clinical assessment and, 519-35
- Achievement
 - socioeconomic status and child development, 371-91
- Achilles/tortoise paradox
 - change detection and, 248
- Activation
 - insomnia and, 233
 - short-term memory and, 53
- Acute lymphocytic leukemia (ALL)
 - child clinical/pediatric neuropsychology and, 324-26
- Acute stress
 - organic disease and psychosocial factors, 344, 346-50
- Addiction
 - eating disorder causes and, 204
 - genetic contributions to
 - adoption studies, 438-39
 - animal genetic models, 440-46, 452-53
 - association studies, 439-40
 - defining addiction, 436-37
 - epistasis, 450-51
 - expression arrays, 446-47
 - family studies, 438-39
 - gene chips, 446-47
 - gene-environment interaction, 447-50
 - genomics, 437-38
 - human genetic studies, 438-40
 - inbred strains, 441
 - interpretations of genetic differences, 451-52
 - linkage analysis, 439-40
 - molecular gene-finding methods, 439-40
 - postgenomics world, 453-54
 - quantitative trait locus mapping, 443-45
 - random mutagenesis, 445-46
 - selected lines, 441-43
 - take home messages, 451-54
 - targeted mutagenesis, 445
 - twin studies, 438-39
 - Adjustment
 - socioeconomic status and child development, 371-91
 - Adoption studies
 - gene-environment interplay and, 468-69, 472-75
 - genetics and addiction, 438-39
- Adult clinical
 - neuropsychology
 - anterior attention functions, 413-16
 - assessment approaches, 403-6
 - attentional switching, 413-16
 - autonoetic consciousness, 420-22
 - behavioral neurology, 403
 - clinical implications, 423-24
 - cognitive functions, 409-17
 - cognitive neuroscience, 416
 - conclusions, 424-25
 - decision-making, 417-20
 - dorsolateral cortex, 409-17
 - emotions, 417-23
 - empathy, 422-23
 - episodic memory, 420-22
 - frontal lobes
 - functions, 409-10
 - major functional subdivisions, 408
 - overview, 407-8
 - history, 403-8
 - humor, 422-23
 - inhibition, 417-20
 - integration of cognitive and clinical neurosciences, 406-7
 - introduction, 402
 - lower level operations, 417-20
 - memory control, 410-11

- mental time travel, 420–22
- modern clinical
 - neuropsychology, 406–7
- neuropsychiatry, 403
- neuropsychology, 403
- polar frontal cortex,
 - 417–23
- prefrontal cortex, 409–17
- reinforcement, 417–20
- reward, 417–20
- selective attention, 415
- self-awareness, 417–23
- self-regulation, 417–20
- social behavior, 417–23
- strategic self-regulation,
 - 418–20
- Stroop Test, 415
- subjective time, 420–22
- summary, 416–17
- sustained attention, 415–16
- sympathy, 422–23
- Trail Making Test, Part B,
 - 413–15
- ventral frontal cortex,
 - 417–23
- Wisconsin Card Sorting
 - Test, 413–15
- working memory, 412–13
- Affect
 - adult clinical
 - neuropsychology and, 401
 - eating disorder causes and,
 - 196–97
 - human aggression and, 27,
 - 39
 - self and social identity, 161
 - workplace
 - organizational behavior
 - and, 279–300
- Affect heuristic
 - rationality and, 499
- Affective neuroscience
 - depression and, 545–65
- Affirmation
 - group
 - self and social identity,
 - 170–72, 176–78
- Africa
 - gene-environment interplay
 - and, 481
- Aggregation effect
 - socioeconomic status and
 - child development, 391
- Aggression
 - human
 - affect, 39
 - anger, 44–45
 - arousal, 39–40
 - attitudes, 36
 - beliefs, 36
 - cognition, 38–39
 - cognitive neoassociation
 - theory, 29–31
 - cues, 37
 - definitions, 28–29
 - discomfort, 38
 - domain-specific
 - theories, 29–32
 - drugs, 38
 - emotion, 39
 - excitation transfer
 - theory, 32
 - expressive motor
 - responses, 39
 - frustration, 37, 38
 - general aggression
 - model, 32–34, 40, 42
 - hostile aggression, 29
 - hostile thoughts, 38
 - incentives, 38
 - inputs, 34–38
 - instrumental aggression,
 - 29
 - interconnections, 40
 - interventions, 45–46
 - introduction, 28
 - long-term goals, 36–37
 - mood, 39
 - opportunity, 43–44
 - outcomes, 40–41
 - overriding inhibitions,
 - 43–44
 - pain, 38
 - person factors, 35–37
 - personality processes,
 - 41–43
 - provocation, 37
 - related phenomena,
 - 43–46
 - routes, 38–40
 - script theory, 31–32,
 - 37–39
 - sex, 35–36
 - shared motivations, 44
 - situational factors, 37
 - social interaction theory,
 - 32
 - social learning theory, 31
 - traits, 35
 - values, 36
 - violence, 29
- Aging
 - emotions and
 - psychoneuroimmunology,
 - 83, 87–89, 94–95
 - "Agree" response
 - latent variables and, 620
- Algorithms
 - clinical assessment and,
 - 533–34
- Allocentrism
 - cultural influences in
 - personality and, 140–41,
 - 145–47
- Allostatic load
 - emotions and
 - psychoneuroimmunology,
 - 93–94
 - socioeconomic status and
 - child development,
 - 383–84
- Alzheimer's disease
 - emotions and
 - psychoneuroimmunology,
 - 83, 88, 99
- Amnesia
 - episodic memory and,
 - 11–16
- Amodal completion
 - change detection and,
 - 250

- Amygdala
depression and affective neuroscience, 545, 559-64
- Anger
emotions and psychoneuroimmunology, 87
human aggression and, 33, 39, 44-45
rationality and, 498
- Anhedonia
depression and affective neuroscience, 564
eating disorder causes and, 196
- Anorexia nervosa
eating disorder causes and, 187-206
- Anoxia
episodic memory and, 15
- Anterior attention functions
adult clinical neuropsychology and, 413-16
- Anterior cingulate cortex
depression and affective neuroscience, 545, 551-55, 561-63
- Anterograde amnesia
episodic memory and, 13
- Anticipation
depression and affective neuroscience, 548
- Anxiety disorders
clinical assessment and, 530, 532
depression and affective neuroscience, 551
eating disorder causes and, 196, 205
emotions and psychoneuroimmunology, 86-87
gene-environment interplay and, 470
latent variables and, 611
- Appraisal
human aggression and, 34
- Arousal
depression and affective neuroscience, 551
human aggression and, 27, 34, 39-40
- Arthritis
emotions and psychoneuroimmunology, 99
- Articulation
short-term memory and, 56-57
- Asia
clinical assessment and, 521
cultural influences in personality and, 141
- Asian-Americans
cultural influences in personality and, 142
"Asian Disease" problem
rationality and, 505
- Asperger syndrome
child clinical/pediatric neuropsychology and, 312-15
- Assaultive behavior
clinical assessment and, 533
- Association studies
genetics and addiction, 439-40
- Attended information
change detection and, 269-70
- Attention
adult clinical neuropsychology and, 401, 413-16
change detection and, 245, 247, 259-63
- Attentional complexes
change detection and, 261-62, 266
- Attentional switching
adult clinical neuropsychology and, 413-16
- Attention deficit hyperactivity disorder (ADHD)
clinical assessment and, 532
gene-environment interplay and, 480
- Attitudes
human aggression and, 36
- Attribution theory
motivational beliefs, goals and values, 109, 117-18
- Australia
cultural influences in personality and, 140
gene-environment interplay and, 470, 475
- Autism
child clinical/pediatric neuropsychology and, 328-30
- Autonoetic consciousness
adult clinical neuropsychology and, 420-22
episodic memory and, 1-2, 4-5, 7, 9, 12, 14, 17, 20
- Autonomy
cultural influences in personality and, 144
- B**
- Baldwin effect
episodic memory and, 7
- "Barnum" feedback
clinical assessment and, 529
- Behavior
adult clinical neuropsychology and, 401-25
cultural influences in personality and, 143
gene-environment interplay and, 463-82

- genetics and addiction, 435-54
- human aggression and, 27-46
- organic disease and psychosocial factors, 343, 344-46
- self and social identity, 161
- socioeconomic status and child development, 385-87
- Behavioral scripts**
- human aggression and, 33
- Beliefs**
- human aggression and, 36
- Bereavement**
- emotions and psychoneuroimmunology, 98
- Bias**
- clinical assessment and, 519-22, 531-33
- depression and affective neuroscience, 548
- eating disorder causes and, 201
- human aggression and, 42
- insomnia and, 233
- intergroup, 575-94
- rationality and, 494-98, 502-3
- socioeconomic status and child development, 391
- Big Five personality traits**
- cultural influences in personality and, 133, 146-52
- Big Seven personality traits**
- cultural influences in personality and, 149
- Bioethics**
- genetics and addiction, 453-54
- Biopsychosocial model**
- eating disorder causes and, 191
- Birth**
- effects beginning prior to socioeconomic status and child development, 371-91
- Birth trauma**
- clinical assessment and, 531
- "Bjorn Borg" problem
- rationality and, 504
- Blacks**
- clinical assessment and, 522
- eating disorder causes and, 193
- "Blindness"
- change detection and, 245-46, 254, 259, 261
- Blink-contingent techniques**
- change detection and, 252-53
- Blood oxygenation level**
- episodic memory and, 16
- Body dissatisfaction**
- eating disorder causes and, 188, 192, 198-99, 205-6
- Bootstrapping**
- rationality and, 495
- Bosnia**
- intergroup bias and, 594
- Boston Process Approach**
- adult clinical neuropsychology and, 405
- Brain dysregulation**
- adult clinical neuropsychology and, 401-25
- episodic memory and, 1-20
- genetics and addiction, 435
- Brain imaging studies**
- depression and affective neuroscience, 545, 547-61
- Brain injury**
- traumatic
- child clinical/pediatric neuropsychology and, 322-24
- Brain maps**
- episodic memory and, 16
- Breeding studies**
- gene-environment interplay and, 471
- Buffer**
- visual
- change detection and, 264
- Bulimia nervosa**
- eating disorder causes and, 187-206
- "Burnout"**
- emotions and psychoneuroimmunology, 96
- C**
- Calibration**
- rationality and, 494
- Calligraphy therapy**
- clinical assessment and, 532
- Canada**
- cultural influences in personality and, 147-48
- gene-environment interplay and, 475
- Cancer**
- emotions and psychoneuroimmunology, 83, 85
- "Canned" interpretations**
- clinical assessment and, 534
- Capacity**
- change detection and, 259
- short-term memory and, 53
- Cardiac ischemia**
- organic disease and psychosocial factors, 348-49
- Cardiovascular disease**
- emotions and psychoneuroimmunology, 83, 85-88, 97, 99
- Case formulation**

- clinical assessment and, 531-32
- Categorical amnesia
 - episodic memory and, 12
- Categorization
 - intergroup bias and, 591-93
- Caucasians
 - clinical assessment and, 522, 530-31
- Causal indicators
 - latent variables and, 616-17
- CBTI systems
 - clinical assessment and, 534
- Central America
 - clinical assessment and, 522
- Central immunological mechanisms
 - emotions and psychoneuroimmunology, 87-89
- Central interests
 - change detection and, 267
- Cerebral blood flow
 - episodic memory and, 16
- Change detection
 - attentional complexes, 261-62
 - attention and change detection, 259-63
 - coherence theory, 262-63
 - coherent structure, 264-65
 - comparison, 260
 - completed change, 249-50
 - conclusions, 272
 - construction, 260-61
 - content of change, 255-56
 - content of display, 254-55
 - contingency of change, 251-53
 - definitions, 247-50
 - dependence on task, 266-67
 - difference, 250-51
 - distinctions, 247-50
 - dynamic change, 249-50
 - empirical approaches, 251-58
 - focused attention, 259-60
 - high-level knowledge, 267-68
 - implicit perception, 268-69
 - introduction, 246-47
 - maintenance memory, 260-61
 - motion, 248-49
 - observer intention, 256-57
 - open issues, 269-71
 - repetition of change, 253-54
 - scene representation, 265-66
 - type of response, 258
 - type of task, 257-58
 - visual buffer, 264
 - visual perception, 263-69
- Cheater-detection module
 - rationality and, 508
- Child clinical/pediatric neuropsychology
 - acute lymphocytic leukemia, 324-26
 - Asperger syndrome, 312-15
 - conclusions, 331
 - definitions, 310-12
 - early hydrocephalus, 317-19
 - future research, 331
 - high-functioning autism, 328-30
 - introduction, 310
 - neurodevelopmental dynamics, 310-12
 - Tourette syndrome, 326-27
 - traumatic brain injury, 322-24
 - Turner syndrome, 319-22
 - white matter model, 310-12
 - Williams syndrome, 315-17
- Child development
 - child clinical/pediatric neuropsychology and, 309-31
 - socioeconomic status and, 371-91
- Childhood sexual abuse
 - eating disorder causes and, 196
- China
 - cultural influences in personality and, 138, 143, 145, 147-50
 - rationality and, 497
- Choice
 - rationality and, 491, 495-98
- Chronic stress
 - organic disease and psychosocial factors, 344, 352
- Chunks
 - change detection and, 267
- Cingulate cortex
 - depression and affective neuroscience, 545, 551-55, 561-63
 - episodic memory and, 18
- Circadian rhythms
 - insomnia and, 215-37
- Class analysis
 - latent variables and, 605, 607, 617, 627-30
- Clinical assessment
 - case formulation, 531-32
 - computerized assessment, 533-34
 - deception detection, 533
 - decision-making, 530-34
 - diagnosis, 530-31
 - forensic assessment, 523-25
 - future directions, 534-35
 - introduction, 520
 - judgement, 530-34

- managed care, 520-21
 mechanical prediction, 533-34
 MMPI-2, 528-29
 multicultural clinical assessment, 521-23
 response options, 527-28
 Rorschach test, 525-29
 self-report tests, 527-30
 treatment decisions, 532-33
 treatment utility, 529-30
 violence prediction, 533
- Closeness
 latent variables and, 622
- Coding regions
 genetics and addiction, 437
- Cognition
 adult clinical neuropsychology and, 401, 409-17
 cultural influences in personality and, 141-42
 eating disorder causes and, 187, 191, 199-201
 episodic memory and, 6, 13-14, 17
 human aggression and, 27, 34, 38-39
 motivational beliefs, goals and values, 109, 123-27
 rationality and, 491, 502-3
 short-term memory and, 53
 socioeconomic status and child development, 371, 375-77, 381-82
- Cognitive activation
 insomnia and, 235-36
- Cognitive-behavior therapy
 insomnia and, 215-37
- Cognitive bias
 eating disorder causes and, 201
- Cognitive hyper-arousal
 insomnia and, 223-24
- Cognitive neoassociation
 theory
 human aggression and, 27, 29-31
- Coherence theory
 change detection and, 260, 262-65
- Cohesion
 latent variables and, 611
- Collective self
 self and social identity, 162-63
- Collective socioeconomic status
 socioeconomic status and child development, 388-91
- Collectivism
 cultural influences in personality and, 133, 139-41
- Coma
 clinical assessment and, 532
- Commitment
 group
 self and social identity, 161-81
- Communication
 cultural influences in personality and, 143-44
- Community
 cultural influences in personality and, 144
- Comparison
 change detection and, 260
- Competition monitoring
 hypothesis
 depression and affective neuroscience, 552-53
- Completed change
 change detection and, 249-50, 270-71
- Complexity
 cultural influences in personality and, 133, 139
 intergroup bias and, 591-93
- Compulsive exercise
 eating disorder causes and, 188
- Computerized assessment
 clinical assessment and, 519, 533-34
- Conceptual orientations
 latent variables and, 605
 organizational behavior and, 292-93
- Conflict
 intergroup bias and, 575-94
- Conjunction fallacy
 rationality and, 504-5
- Constructs
 change detection and, 260-61
 latent variables and, 605, 607-8
- Contagion effect
 socioeconomic status and child development, 389
- Content
 change detection and, 254-56
- Context
 self and social identity, 161, 164-66

 - episodic memory and, 1-3, 5, 7, 14-15, 18-20
 - Subjective uncertainty
 - reduction theory
 - intergroup bias and, 581-82
 - Substance abuse
 - genetics and addiction, 435-54
 - Subtraction method
 - episodic memory and, 17
 - Success
 - expectancy for motivational beliefs, goals and values, 109
 - Suicide
 - eating disorder causes and, 189-90
 - socioeconomic status and child development, 383
 - Support systems
 - socioeconomic status and child development, 371-91
 - Support theory
 - rationality and, 495
 - Sustained attention
 - adult clinical neuropsychology and, 415-16
 - Sweden
 - cultural influences in personality and, 140
 - gene-environment interplay and, 474
 - "Switching off"
 - insomnia and, 230
 - Sympathy
 - adult clinical neuropsychology and, 422-23
 - Systems theory
 - episodic memory and, 5-9, 12, 14-15, 19
- T**
- Take home messages
 - genetics and addiction, 451-54
 - Targeted mutagenesis
 - genetics and addiction, 445
 - Task value
 - motivational beliefs, goals and values, 109
 - Taxonomy of situations
 - self and social identity, 161, 166-67
 - Teacher expectations and styles

- socioeconomic status and
child development,
382-83
- Teasing
eating disorder causes and,
195
- Temporal amnesia
episodic memory and, 12
- Temporal lobes
episodic memory and,
12-13
- Temporal tags
episodic memory and, 7
- Terror management theory
intergroup bias and, 575,
582
- Test of Memory Malinger
clinical assessment and,
524-25
- Thematic Apperception Test
clinical assessment and,
522
- Third-order motion
change detection and, 249
- Thought field therapy
clinical assessment and,
532
- Thoughtful action
human aggression and, 34,
40
- Threat
intergroup bias and, 575
self and social identity,
161, 167-78
- Threat management theory
intergroup bias and, 586
- Thresholds
latent variables and, 621
- Tightness
cultural influences in
personality and, 133,
138-39
- Tourette syndrome
child clinical/pediatric
neuropsychology and,
326-27
- Trail Making Test, Part B
adult clinical
neuropsychology and,
413-15
- Traits
human aggression and, 35
- Transgenes
genetics and addiction, 435
- Transmission disequilibrium
test
genetics and addiction,
440
- Trauma
clinical assessment and,
531
eating disorder causes and,
195-96
episodic memory and,
12-16
- Traumatic brain injury
child clinical/pediatric
neuropsychology and,
322-24
- Treatment decisions/utility
clinical assessment and,
529-30, 532-33
- Triadic architecture
change detection and,
265-66
- True scores
latent variables and, 605,
610, 615, 618
- Truth telling
clinical assessment and,
533
- Turkey
cultural influences in
personality and, 148
- Turner syndrome
child clinical/pediatric
neuropsychology and,
319-22
- Twin studies
depression and affective
neuroscience, 550
eating disorder causes and,
195, 201
gene-environment interplay
and, 469-70, 473-75,
477-79
genetics and addiction,
438-39
- "Two character" models
gene-environment interplay
and, 472
- U
- Uncertainty reduction
intergroup bias and, 575
- Uncluttered environment
short-term memory and,
65
- Unitary models
short-term memory and,
73-75
- United States
clinical assessment and,
520-23, 528, 535
cultural influences in
personality and, 138-40,
142, 144-45, 147-48, 151
eating disorder causes and,
193
organizational behavior
and, 280
- Universality
cultural influences in
personality and, 133
- Unmeasured variables
latent variables and, 605
- Unobserved variables
latent variables and, 605,
611, 622-23, 627, 630
- Utility variants
rationality and, 498
- V
- Validity
clinical assessment and,
526, 531, 535
- Values
human aggression and, 36
motivational beliefs, goals
and values, 109, 117-23
- Ventral frontal cortex

- adult clinical neuropsychology and, 417-23
 - Ventral functions
 - adult clinical neuropsychology and, 401
 - Verbal protocols
 - rationality and, 497
 - Vigilance
 - adult clinical neuropsychology and, 415
 - Violence
 - human aggression and, 27-46
 - prediction of
 - clinical assessment and, 533
 - Virtual representation
 - change detection and, 265
 - Visual attention
 - change detection and, 245, 247
 - Visual buffer
 - change detection and, 264
 - Visual memory
 - change detection and, 245, 247
 - Visual perception
 - change detection and, 263-69
 - Visual short-term memory
 - change detection and, 260-63, 265, 267
 - Visuomotor responses
 - change detection and, 258
 - Volition
 - motivational beliefs, goals and values, 109, 126
 - Vulnerability
 - emotions and psychoneuroimmunology, 94-99
- W**
- Wales
 - gene-environment interplay and, 474
 - Weighting of options
 - rationality and, 497
 - Well-being
 - child
 - socioeconomic status and child development, 371-91
 - cultural influences in personality and, 143
 - White matter model
 - child clinical/pediatric neuropsychology and, 309-31
 - "Will-to-change"
 - depression and affective neuroscience, 555
 - Williams syndrome
 - child clinical/pediatric neuropsychology and, 315-17
 - Wisconsin Card Sorting Test
 - adult clinical neuropsychology and, 413-15
 - Withdrawal behaviors
 - organizational behavior and, 296
 - Word length effects
 - short-term memory and, 53, 58-61
 - Work group characteristics
 - organizational behavior and, 289-90
 - Working memory
 - adult clinical neuropsychology and, 412-13
 - short-term memory and, 53
 - Workplace affect
 - organizational behavior and, 279-300
 - Wound healing
 - delayed

CONTENTS

Frontispiece— <i>Endel Tulving</i>	xvi
PREFATORY	
Episodic Memory: From Mind to Brain, <i>Endel Tulving</i>	1
GENETICS OF BEHAVIOR	
Genetic Contributions to Addiction, <i>John C. Crabbe</i>	435
BRAIN IMAGING/COGNITIVE NEUROSCIENCE	
Child-Clinical/Pediatric Neuropsychology: Some Recent Advances, <i>Byron P. Rourke, S. A. Ahmad, D. W. Collins, B. A. Hayman-Abello, S. E. Hayman-Abello, and E. M. Warriner</i>	309
AUDITION AND ITS BIOLOGICAL BASES	
Change Detection, <i>Ronald A. Rensink</i>	245
MEMORY	
Remembering Over the Short-Term: The Case Against the Standard Model, <i>James S. Nairne</i>	53
JUDGMENT AND DECISION MAKING	
Rationality, <i>Eldar Shafir and Robyn A. LeBoeuf</i>	491
BIOLOGICAL AND GENETIC PROCESSES IN DEVELOPMENT	
Gene-Environment Interplay in Relation to Emotional and Behavioral Disturbance, <i>Michael Rutter and Judy Silberg</i>	463
DEVELOPMENT IN SOCIETAL CONTEXT	
Socioeconomic Status and Child Development, <i>Robert H. Bradley and Robert F. Corwyn</i>	371
MOOD DISORDERS	
Depression: Perspectives from Affective Neuroscience, <i>Richard J. Davidson, Diego Pizzagalli, Jack B. Nitschke, and Katherine Putnam</i>	545
PSYCHOPATHOLOGY: VARIOUS DISORDERS	
Causes of Eating Disorders, <i>Janet Polivy and C. Peter Herman</i>	187

Insomnia: Conceptual Issues in the Development, Maintenance and Treatment of Sleep Disorder in Adults, <i>Colin A. Espie</i>	215
CLINICAL ASSESSMENT	
Clinical Assessment, <i>James M. Wood, Howard N. Garb, Scott O. Lilienfeld, and M. Teresa Nezworski</i>	519
ADULT CLINICAL NEUROPSYCHOLOGY	
Adult Clinical Neuropsychology: Lessons from Studies of the Frontal Lobes, <i>Donald T. Stuss and Brian Levine</i>	401
SELF AND IDENTITY	
Self and Social Identity, <i>Naomi Ellemers, Russell Spears, and Bertjan Doosje</i>	161
ALTRUISM AND AGGRESSION	
Human Aggression, <i>Craig A. Anderson and Brad J. Bushman</i>	27
INTERGROUP RELATIONS, STIGMA, STEREOTYPING, PREJUDICE, DISCRIMINATION	
Intergroup Bias, <i>Miles Hewstone, Mark Rubin, and Hazel Willis</i>	575
CULTURAL INFLUENCES	
Cultural Influences on Personality, <i>Harry C. Triandis and Eunkook M. Suh</i>	133
ORGANIZATIONAL PSYCHOLOGY OR ORGANIZATIONAL BEHAVIOR	
Organizational Behavior: Affect in the Workplace, <i>Arthur Brief and Howard Weiss</i>	279
LEARNING AND PERFORMANCE IN EDUCATIONAL SETTINGS	
Motivational Beliefs, Values, and Goals, <i>Jacquelynne S. Eccles and Allan Wigfield</i>	109
PSYCHOBIOLOGICAL FACTORS IN HEALTH	
Emotions, Morbidity, and Mortality: New Perspectives from Psychoneuroimmunology, <i>Janice K. Kiecolt-Glaser, Lynanne McGuire, Theodore F. Robles, and Ronald Glaser</i>	83
PSYCHOPHYSIOLOGICAL DISORDERS AND PSYCHOLOGICAL EFFECTS ON MEDICAL DISORDERS	
Effects of Psychological and Social Factors on Organic Disease: A Critical Assessment of Research on Coronary Heart Disease, <i>David S. Krantz and Melissa K. McCeney</i>	341

ANALYSIS OF LATENT VARIABLES

- Latent Variables in Psychology and the Social Sciences,
Kenneth A. Bollen 605

INDEXES

- Author Index 635
Subject Index 679
Cumulative Index of Contributing Authors, Volumes 43–53 705
Cumulative Index of Chapter Titles, Volumes 43–53 709

ERRATA

Online log of corrections to the Annual Review of Psychology corrections:
Steven Regeser López and Peter J. Guarnaccia

**Cultural Psychopathology: Uncovering the Social World
of Mental Illness**

Annu. Rev. Psychol. 2000, Vol. 51: 571–598.
